## Who is Justin Allen?

Justin Allen grew up in Malta, Illinois (population 800) and graduated from Malta high school (student enrollment 78) in 1999 where he was a two time All-State Basketball Player and a Three Time Little Ten Conference All-Conference performer. During his four years at Malta High School he scored 2,143 points and pulled down 929 rebounds, setting school records in both categories. After finishing his career at Malta High School, Justin earned a basketball scholarship to Arizona State University in the Pac-10 Conference.

Justin was a member of the Arizona State University basketball team for 5 seasons (2000-2005). After a promising freshman season he was diagnosed, in the summer of 2000, with **Hodgkin's disease**, or type of Lymphoma Cancer. He underwent 6 months of chemotherapy and 8 weeks of radiation. During this time he had an awakening experience that will forever have changed his life. One minute he was an 18-year-old basketball player with dreams of playing for a championship and suddenly he was facing the biggest challenge of his life. Justin shifted his attention to battling not on the basketball court, but instead battling for his life. After a year long battle with cancer Justin learned that there was no sign of the tumors that once had filled his body and he immediately set his sights on a return to the court. The very next season Justin found himself on the court and in a Sun Devil Uniform. Justin played another three years at Arizona State going to the NIT tournament 2 times and the final 32 in the NCAA tournament in 2004.

### During his time at ASU Justin was awarded:

- **The Jimmy Valvano National comeback player of the year**
- **The Gene Autry Courage Award**
- **The NCASP Courage Award**
- **The Sparky Golden Heart Award**
- **Featured in "100 Heroes: People in sports who make this a better world," by Richard E. Lapchick**
- **3-time Pac-10 All Academic award winner.**

Upon graduation Justin spent five years playing professional basketball internationally in places such as Argentina, Australia, Japan, Venezuela, Kuwait, and South Korea. In 2009 Justin ended his playing career to create his own basketball training and club team business, [Arizona Passion4ball](#). Recently Justin has formed a motivational and inspirational company called, [Chase My Passion](#), which is now featuring a children's book that is based on Justin's Life. Justin is a very passionate person in life and believes in paying it forward. Will Smith once stated, "*If you are not helping someone else, then you are wasting your time.*" Justin has taken this belief to his daily life and hopes to inspire others with his story of perseverance, courage, and attitude demonstrating a mindset of never giving up, always chasing our passions, and individual development along our own unique Journey.

## What to Expect?

Justin speaks to a wide variety of leadership and motivational dynamics lived and learned throughout his journey. Here are just a few topics.

### Believe & Achieve:

Motivation is what drives us all. It is what gets us out of bed in the morning. Justin provides raw, real motivational tactics coupled with his own personal stories of motivation from a small town kid trying to play collegiate ball, to a cancer patient overcoming the toughest battle of his life, to a beat down athlete trying to gain back what most thought was lost. To learn to believe in what we want and then let our mind drive our body to achieve is critical to be who we want to be.

### Vision

We all see the world with different lenses. The way we view the world, our circumstances, and those around us has a huge impact on who we are and why we are. Being able to take a look at our vision and alter it to change our reality is a great power that Justin knows all too well about. His *Kaledoieye* is one of the big reasons why he has triumphed over multiple adversities' in life.

### Build your "I" team:

Who you surround yourself with plays a major role in who you will become. Surround yourself with the wrong crowd and you can watch your destiny take a wrong turn. Develop a championship "I" team and become victorious in the game of life. Justin believes in building a strong network of people who motivate, drive, inspire, push, and impact him professionally and personally. His "I" team is one reason he is where he is today.

### "Yes I Can,"

Every person will face some type of struggle, transition and adversity in their life. Justin knows adversity well, and challenges his listeners to fight the good fight and win the battle over this common foe. Before you can achieve anything in life, you must believe that it is possible. "Yes I Can!!!"
